Read Me

Setup:

On your mac put the Games folder to your desktop

Open Terminal and run these commands:

cd ~/desktop/Games

chmod +x Run.sh

xattr -d com.apple.quarantine ./Run.sh

Now if you don't have Python Install it from Self Service or [Here](#)

When it installs Open Run.sh (Right Click>Open With>Terminal Make sure it has 'All Applications' open and 'Always open with' Checked) This will open a web page (http://localhost:3000/) Then Select the game

Closing:

Close the Terminal Then Terminate

Opening (After Setup):

Run Run.sh

Game Links: http://localhost:3000/[GAME NAME] or http://localhost:3000/ Then select the game
